

Nozzle Manufacturing Technician

JOB DESCRIPTION

Hands on production and assembling of small parts, using equipment and tooling within desktop style work centers. Team members work together in a clean, safe, comfortable factory setting to produce small components, while perfecting skills using small hand tools, microscopes, and light industrial equipment.

GENERAL DUTIES

- Conduct in-process Inspection of incoming and outgoing parts with microscopes and optical vision systems
- Polishing, mounting, and cutting of ultrahard materials
- Operating multiple machines to shape ultrahard materials according to specifications on drawings and work instructions
- Tool reshaping and brazing of various materials
- Maintain an organized and clean work environment
- Use of basic math skills
- Interacting with Team members and leads

REQUIREMENTS

- Must be 18+ and have a high school diploma or GED
- No experience necessary as we provide hands on training
- Experience with microscopes, calipers, micrometers, and small components is a plus
- Must be punctual, reliable, and detail oriented
- Work and communicate well within a team atmosphere

BENEFITS

Diamond Technology Innovations proudly offers our valued employees a competitive salary and benefit package including Medical, Dental, Life, 401K, Profit Sharing, Vacation and Sick leave, a low deductible 100% employer paid medical insurance plan and much more.

Job Type: Full Time, Monday – Friday,
